

Tysso POS-5715-FS

All-in-One Fanless POS System

The Fanless POS Terminal

The new Tysso POS-5715-FS is a superbly designed fanless POS terminal with a top-rated high-performance Celeron M 1GHz processor which is much faster than other fanless models in the market.

With Tysso's superb housing design, this fanless POS terminal not only features superior heat dissipation and low energy consumption, but also delivers stable and powerful processing, which matches the requirements of any harsh environment.

The system will also be made available with a 2nd LCD monitor, I-Button, MSR and WIFI.

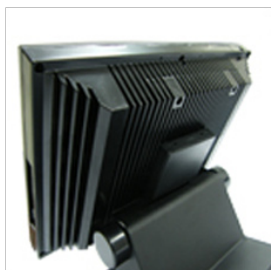

Rear Customer Display
