

# Zebex Scanner Promotions

## Zebex Z-6070 Omnidirectional Scanner

At the press of a button you can convert the omnidirectional scan pattern to a single line, which provides a very flexible scanning solution. The omnidirectional facility provides the very best fast scanning capability and the single line feature allows you to select an individual bar code when scanning documents that include more than one bar code.

- **Dual-laser technology & large scan field**

Enables an unprecedented 32-line scan pattern and 2,400 scans per second for lightning quick, accurate reads. Combined with a 45 degree scan angle for improved effectiveness and productivity.

- **Z-SCAN technology**

Instant recognition and decoding of barcodes.

- **Barcode stitching**

An applied logic for deciphering and rebuilding damaged and truncated barcodes, increasing first-pass reads and ensures high throughput.

- **Instant “objective-fly-by” automatic wake-up**

Reduces power demand and extends scanner life; scanner goes into automatic sleep mode when not in use, but “wakes up” at the pass of barcode.

- **Rugged scan window**

Durable scan window to sustain from dropping.

- **Easy on-site configuration & upgradeability**

Simple setup using either a Windows-based program or a barcode scanning-based guide; with electronically erasable flash memory to ensure easy on-site upgrade.

## Zebex Z-3051HS Single Line Scanner

Ergonomically designed, this slender and lightweight hand-held scanner is ruggedly encased; it comes with a small footprint stand as standard to save counter space and allow hands-free operation. The LED display and beeper are programmable to cater to the users' own preference.

Equipped with multi-interface communication, the Zebex Z-

3051HS scanner has an impressive

scanning performance with competitive price that ensures hassle-free integration into virtually any retail environment.

- **Powerful scanning performance & large scan field**

Up to 500 scans per second and a 52 degree scan angle makes this scanner technically superior to all of its competitors

- **Z-SCAN technology**

Instant recognition and decoding of barcodes

- **Streamlined, rugged design**

Easy-grip for comfort, solid housing for long-lasting durability

- **LED scan indicator & programmable beeper**

Enhanced user feedback of scan status

- **Flexible communications**

Multiple interface options including KBW, RS-232 & USB
