

# POSpark 5700

Low noise, inexpensive POS system

## Unmatched Style and Functionality

Designed to create high levels of performance and outstanding value, TYSSO's POS-5700 offers unmatched style and functionality. The POS-5700 is a fully integrated TFT/LCD Touch Screen Workstation that offers unmatched price-performance value for our global POS customers. It provides countless features with its minimized power consumption design, high performing ULV processor, and VIA chipset that supports dual monitor output.

TYSSO's POS-5700 differentiates itself through its superb internal housing design, which vastly improves noise reduction, heat dissipation and also makes the POS hardware maintenance a lot easier. The specially designed aluminum die-casting base and the securely mounted monitor also provide stability and reliability during the touch screen operations.

POS-5700 offers various hardware customizations upon OEM requests, including VESA Wall-Mount models, choices of rear mount between customer pole display and 2nd LCD display.

This Point of Sale system is compatible with both Linux and Windows Operating Systems, and is able to integrate with a wide selection of retail devices, such as barcode scanner, receipt printer, cash drawer, swipe card reader, and cheque readers.

## Features

- High performance ULV processor speed up to 1.00GHz
- Compact and solid industrial design
- Low noise system with reliable thermolysis
- Wide range tilting angle 15 ~ 80 degrees
- Right-sided PS2/USB for friendly installation
- Optional MSR/Customer Display/2nd VGA Display
